

Boy's Town Junior College

Best out of Waste 22.11.2014

Recycle today for a better tomorrow

Never refuse to reuse

In order to make students aware of uses of waste material, and to give them a lesson on reducing waste to save our future, a 'Best out of Waste' competition was organised for students of class XI and XII.

Mind-blowing, beyond expectation, fantabulous ideas were demonstrated by students. Right from waste ropes to broken bangles, plastic bangles, waste nails to broken door handles every waste material was used and the result was a hall full of projects made out of waste.

The jury was the teachers of college, Mr. Chandrakishore Singh and Mrs. Swati Tribhuvan. The students were also motivated by principal of junior college. They were amazed to see the models working and non-working made by students. It took a couple of hours for them to judge the best three exhibits.

Following are the winners:

Prize	Name	Class
First	Mast. Jobin Jose	XI Science
Second	Miss Apurva Gangwal	XI Science
Third	Miss Suvarna Chikte	XI Science

The exhibition was kept open for all the students and teachers to see during school hours. The exhibits left them astonished.
